TRAFFIC FALLING CONTINUED LOCAL DECREASE IN

Chicago Grain Dealers Engage in Questionable Methods to Dodge

Rates in Shipments.

Freight traffic continues light with all the lines, and the weekly reports show a steady and very general falling off in the number of loaded cars moved, both on the north-and-south and the east-and-west roads. Every division shows a lighter business except the Columbus division of the Pennsylvania and the Cleveland division of the Big Four, the former having an increase of forty-five and the latter of twenty-nine cars. The total movement of loaded cars for the week was only 14,850, being 774 less than in the preceding week. 1,509 less than in the corresponding week of 1895, and 2,370 less than in the correwere 200 more empty cars moved than in the preceding week may have some significance, as indicating an increased moveoats, but even the most sanguine freight improvement in business circles generally of people. An Abuse Corrected.

The steamship lines have practically destroyed the business of the New York equitable agents, or Ellis island men, as they are generally known, who have heretofore reaped a harvest on commissions for ticketing arriving immigrants to the West from New York. The agreement is signed by eighteen steamship companies, and goes into immediate effect. To-day the steamship immigrant agents will receive a circular, containing this statement among others: "In the future the undersigned steamship lines will not accept advices of prepaid (west-bound) steerage tickets unless passengers are booked through to destination. Agents must remit immediately upon the sale of a prepaid (west-bound) steerage order for the ocean and inland transportation to either the general agency at the port of landing in America of the steamship company by which prepaid (west-bound) passenger is to be forwarded, or to the official general passenger agency of such company in the in-terior in whose territory the agent is lo-cated." It is explained that this through booking will prevent delay in forwarding the immigrants and relieve the officers of the government, who are now frequently at a loss to know what to do in case of immigrants who have no tickets or money to purchase them, and who are yet known to be en route to friends who will prevent ing. Sharp Practice at Chicago. St. Louis business men have called the leged fact that shipments of corn, originating in Kansas and Nebraska, and ostensibly destined to Toledo, Buffalo, New York and New England points, are being stopped at Chicago by connivance of some of the Western roads, thus giving Chicago dealers the benefit of the low proportional rates between Mississippi river points and Chicago accruing under the export rates established by the Joint Traffic Association.

By this scheme, it is alleged. Chicago grain dealers can pay 1/201c more per bushel for corn in the Western country than buyers who operate through St. Louis and are subject to the rates prevailing at that point-the sums of local rates applying on seaboard traffic. The stoppage at Chicago of grain billed through that city is a clear violation of the Western freight agreement, no less than of the interstate-commerce law, and it is not to be supposed the St. Louis lines or shippers will permit its continuance if they can fix the truth of the charge.

During the past week there were moved by the Indianapolis roads at this point 4,744 empty cars, being 300 more than were handled the preceding week, but 242 less

The falling off in business on the Big Four lines last week was not marked. Total number of cars handled on the four

divisions was 8,568, being only 452 less than in the week ending on the 18th. Of the total 6,805 cars were loaded, as compared with 6,971 handled the preceding week. The Vandalia last week brought in 1,017 loaded and 164 empty cars, and forwarded west 819 loaded and 384 empties-a total movement of 2,364. This shows a falling off in loaded car movement of 23 cars as compared with the business of the week ending the 18th. Of the east-bound business 157

cars were loaded with live stock. General and Personal.

No better evidence can be furnished that the various lines are living up to agreements in freight matters than is afforded by the weekly and monthly reports of earnings-gross. While the car movement shows a very uniform decrease the receipts at the treasurers' offices indicate a pretty constant gain. This is the more gratifying by reason of it being so unlooked for. Dem. Split Joint Convention. SCOTTSBURG, Ind., July 25 .- The Democrats of the joint senatorial district, composed of Clark, Jennings and Scott counties, held a delegate convention here this afternoon to nominate a candidate for State Senator and split wide open. Joseph Shea, of Scott county, and George H. Voight, of Clark county, were aspirants. Shea had entered the race some months ago remarkable degree, handling within three when he thought no one would oppose him. but not long ago Clark county sprung Voight. This led to a bitter fight and a serious split in the party. The friends of Shea had prepared themselves for the occasion by having the "machine" on their side, and when the convention was called to order this afternoon by Mark Storen, chairman of the Democratic central committee moving that the Chair appoint a committee of one from each county as a committee on credentials. This the Chair proceeded to do, refusing the chairman of the Clark county delegation the privilege of naming the member for his county. The committee ap-

pointed consisted entirely of men favoraole to the nomination of Shea. Clark county delegates had been selected some months before on an apportionment of one delegate for each 200 Democratic votes. When the convention was called the apportionment was based on one delegate for each 150 votes. This entitled Clark county to seven more delegates than had been selected by the township and precinct mass conventions, and to supply the additional delegates the chairman of the county central committee of that county selected the additional delegates. The original delegation denied the right of the chairman and named contesting delegates. Both sides claimed seats in the convention. The credentials committee made a report seating the delegates chosen by the county chairman, and when the report was adopted the majority of the regularly chosen delegates from Clark county bolted, and before the other side had completed a permanent organization had organized a convention of their own in one end of the court room by selectng S. B. Biffendaffer as chairman and D. . Payton as secretary, and proceeded in the regular way to hold a senatorial convention. George W. Baxter placed Mr. Voight in nomination for State Senator and the solid vote of Clark county, that being twenty-seven and a majority over all, was east for him. Jennings and Scott counles were called, but paid no attention. Mr. Voight was declared the nominee and the convention adjourned just as the other side had completed a permanent organization by the selection of Thomas B. Rader, of Clark county, chairman and James Reeney, of Jennings county, secretary. James K. Marsh, on behalf of Clark county, placed Joseph H. Shea in nomination. The roll of Clark county was called and the secretary announced that thirteen had voted for Shea and that fourteen had refused to vote. Jennings cast eight for Shea and one refused

Bryan's Message.

ST. LOUIS, July 25 .- The Populist conention just before the adjournment today narrowly missed becoming the scene of what would in all probability have been the greatest sensation of its proceedings. Governor Stone, of Missouri, and delegate Patterson, of Colorado, were present as the representatives of Senator Jones, chairman of the Democratic national comnittee, with a long telegram from Mr. Bryan defining his position with reference to the Populist nomination in view of the refusal of the convention to indorse Mr. Sewall. Governor Stone was extremely anxious to read this message; but the privilege was denied him by Chairman Allen, and the convention was saved from what of the names of candidates more than once would have been a very exciting and in-teresting scene. The roll call of States on the presidential nomination was in progress and had progressed so far as to make it quite certain, if nothing occurred to change any of the votes already cast, Mr. Bryan would be the nominee of the convention. There had been anxious inquiries should keep France in terror, instead of during the entire day for messages from courting friendly relations.

Mr. Bryan by many of the middle-of-the-Mr. Bryan by many of the middle-of-the-road men, and the Texas delegation went so far as to wire him for a definition of his position. It is considered probable by many who were present that if the dispatch had been read, it might have changed the course of the nomination. Senator Allen took the position that it would at least create great confusion and much excitement, and that in view of all the circumstances it would not be wise to have the message read. He also exerted his utmost endeavors to suppress any ref-erence to it in the proceedings, and suc-

ceeded in doing so until the roll call had been completed. The only mention made of the matter was by Mr. Ashley, of Texas, who, rising to a question of personal privilege, asked if any telegram was on the secretary's ta-ble from Mr. Bryan defining Mr. Bryan's

"There is none," replied Mr. Allen.

Senator Butler Elected Chairman. ST. LOUIS, July 25.—The Populist national committee held its first meeting tonight. After quite a spirited contest Senator Butler, of North Carolina, was elected chairman, receiving sixty-five votes on the second ballot. The other men who were placed in nomination were Senator Allen. of Nebraska, and General Weaver, of Iowa. Senator Allen said he did not see how it was possible for him to give the necessary time to the campaign. J. E. Edgerton, of Nebraska, was elected secretary and M. C. Rankin, of Indiana, treasurer. The following, with the chairman, secretary and treasurer, were elected members of the executive committee: Sovereign, Arkansas; G. F. Washburn, Massachusetts; E. F. Taylor, Pennsyl-vania; H. W. Reed, Georgia; J. W. Briedenthal, Kansas; John S. Dore. California. It is probable that the headquarters will be in Washington.
